

## 1. Getting There:

We will pick you up between 6:00 - 6:30 am. Our groups are very small so we do not waste time driving around Las Vegas gathering 60 people.

## 2. McDonald's Breakfast:

Your McDonald's breakfast is included in the trip. We'll stop in Boulder just before Hoover Dam. You can eat as much as you like.

## 3. Lake Mead Overlook:

Lake Mead is the backup of the Colorado River at Hoover Dam. It is vast and surreal. Lake Mead is 167 miles in length and over 500 feet deep in the reservoir.

## 4. Hoover Dam:

Get your cameras ready to see a site for the ages! Hoover Dam is a site for the ages. The dam was built between 1931 - 1935 during the heart of the Great Depression.

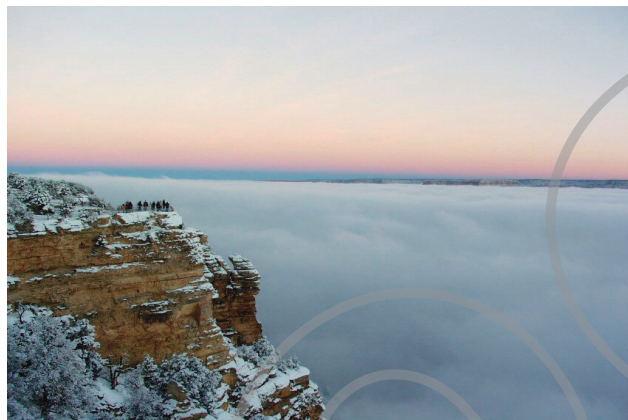

## 5. The Arizona Desert:

Many think the desert is a sandy region covered with sand and tumbleweed. You'll learn that the landscape is just the opposite, filled with flowers, plants, and mountains.

# The Grand Canyon

There isn't a picture that gives justice to the Grand Canyon. It transcends beyond borders and frames as sunlight brushes shadows over rocks, trees, and clouds, careful to never paint the same scene twice. You will have a 4-5 hour guided tour along the rim to capture the moment like Mother Nature intended; peacefully along a winding trail where the edge of earth touches the faint blue sky.

## The Buildings of Mary Coulter

Mary Coulter designed the buildings at the South Rim, where the rustic setting allows you to slip back into the rugged yet awkwardly cozy feeling of the American West.

## Grand Canyon GUIDED WALKING TOURS

*presented by:*

**Grand-Adventures.com**

Trip Length 14 Hrs

*All photos in the brochure were taken during our tours!*

## Our Commitment

We are Grand-Adventures.com and we create, organize, and manage all of your tours. We keep our group sizes small because we believe that companies cannot be large and commercial and still offer excellent value, service, and quality. Something always seems to suffer in a commercial environment and sadly it seems like it's always the customer. We don't believe in making our customers suffer and understand that your pictures should be snapshots of fond memories, not reflections of disappointment. Spending time with us is more than just a trip. It's about being with people who still understand the value of your time. We truly feel committed to offer you the experience of a lifetime!
